

SEA & TOURING KAYAK

Nekton

**Blade surface area:** 620 cm<sup>2</sup>  
**Shaft diameter:** 30 mm  
**Blade material:** Carbon  
**Blade colours available:** ●  
**Lengths:** 200 – 240 cm  
**Shaft material:** fiberglass, sanded fiberglass, carbon, sanded carbon

All Nekton blades are made manually, piece by piece. Occasional cosmetic imperfections don't affect the performance of the paddle. There are white high-visibility logos on both sides of the paddle.

Paddle types:

Nekton G

**Blade surface area:** 620 cm<sup>2</sup>  
**Shaft diameter:** 30 mm  
**Blade material:** Fiberglass  
**Blade colours available:** ●  
**Lengths:** 200 – 240 cm  
**Shaft material:** fiberglass, sanded fiberglass, carbon, sanded carbon

All Nekton G blades are made manually, piece by piece. Occasional cosmetic imperfections don't affect the performance of the paddle. There are white high-visibility logos on both sides of the paddle.

Paddle types:

Wolferine Carbon / Wolferine Carbon Light

**Blade surface area:** 655 cm<sup>2</sup>  
**Shaft diameter Wolferine Carbon:** 30 mm  
**Shaft diameter Wolferine Carbon Light:** 28 mm  
**Blade material:** PAC – Carbon reinforced polyamide  
**Blade colours available:** ●  
**Lengths:** 180 – 240 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon, sanded carbon

Paddle types:

\* not available with dural shaft

Wolferine / Wolferine Light

**Blade surface area:** 655 cm<sup>2</sup>  
**Shaft diameter Wolferine:** 30 mm  
**Shaft diameter Wolferine Light:** 28 mm  
**Blade material:** PAG – Glass reinforced polyamide  
**Blade colours available:** ○  
**Lengths:** 180 – 240 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon, sanded carbon

Paddle types:

\* not available with dural shaft

Pyxis / Pyxis Light

**Blade surface area:** 604 cm<sup>2</sup>  
**Shaft diameter Pyxis:** 30 mm  
**Shaft diameter Pyxis Light:** 28 mm  
**Blade material:** PAG – Glass reinforced polyamide  
**Blade colours available:** ○  
**Lengths:** 180 – 240 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon, sanded carbon

Paddle types:

\* not available with dural shaft

Sea / Sea Light

**Blade surface area:** 626 cm<sup>2</sup>  
**Shaft diameter Sea:** 30 mm  
**Shaft diameter Sea Light:** 28 mm  
**Blade material:** HDPE – High-density polyethylene  
**Blade colours available:** ●●●●●  
**Lengths:** 180 – 240 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon

Paddle types:

\* not available with dural shaft  
\*\* available with dural shaft only

Puffin

**Blade surface area:** 509 cm<sup>2</sup>  
**Shaft diameter:** 28 mm  
**Blade material:** PAG – Glass reinforced polyamide  
**Blade colours available:** ●  
**Lengths:** 160 – 220 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon, sanded carbon

Paddle types:

\* not available with dural shaft

WHITEWATER KAYAK

Aker

**Blade surface area:** 705 cm<sup>2</sup>  
**Shaft diameter:** 30 mm  
**Blade material:** Fiberglass + Carbon  
**Blade colours available:** ●  
**Lengths:** 180 – 210 cm  
**Shaft material:** fiberglass, sanded fiberglass, carbon

All Aker blades are made manually, piece by piece. Occasional cosmetic imperfections don't affect the performance of the paddle. Blade edges reinforced with Dynel.

Paddle types:

Rapa Carbon / Rapa Carbon Light

**Blade surface area:** 713 cm<sup>2</sup>  
**Shaft diameter Rapa Carbon:** 30 mm  
**Shaft diameter Rapa Carbon Light:** 28 mm  
**Blade material:** PAC – Carbon reinforced polyamide  
**Blade colours available:** ●  
**Lengths:** 180 – 220 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon

Paddle types:

\* not available in Light version  
\*\* not available with dural shaft

Rapa / Rapa Light

**Blade surface area:** 713 cm<sup>2</sup>  
**Shaft diameter Rapa:** 30 mm  
**Shaft diameter Rapa Light:** 28 mm  
**Blade material:** PAG – Glass reinforced polyamide  
**Blade colours available:** ●●  
**Lengths:** 180 – 220 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon

Paddle types:

\* not available in Light version  
\*\* not available with dural shaft

Allround / Allround Light

**Blade surface area Allround:** 736 cm<sup>2</sup>  
**Blade surface area Allround Light:** 636 cm<sup>2</sup>  
**Shaft diameter Allround:** 30 mm  
**Shaft diameter Allround Light:** 28 mm  
**Blade material:** HDPE – High-density polyethylene  
**Blade colours available:** ●●●●●  
**Lengths:** 180 – 240 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon

Paddle types:

\* not available with dural shaft  
\*\* available with dural shaft only

Asymmetric / Asymmetric Light

**Blade surface area Asymmetric:** 709 cm<sup>2</sup>  
**Blade surface area Asymmetric Light:** 616 cm<sup>2</sup>  
**Shaft diameter Asymmetric:** 30 mm  
**Shaft diameter Asymmetric Light:** 28 mm  
**Blade material:** HDPE – High-density polyethylene  
**Blade colours available:** ●●●●●  
**Lengths:** 180 – 240 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon

Paddle types:

\* not available with dural shaft  
\*\* available with dural shaft only

Jago / Jago Light

**Blade surface area:** 608 cm<sup>2</sup>  
**Shaft diameter Jago:** 30 mm  
**Shaft diameter Jago Light:** 28 mm  
**Blade material:** PAG – Glass reinforced polyamide  
**Blade colours available:** ●  
**Lengths:** 160 – 220 cm  
**Shaft material:** dural, fiberglass, sanded fiberglass, carbon

Paddle types:

\* not available with dural shaft  
\*\* not available in Light version

PADDLE LENGTH GUIDE

<p>Whitewater Paddles</p> <p>L = 10 – 15 cm</p>	<p>Touring Paddles (Seakayaking)</p> <p>L = 20+ cm</p>
<p>Canoe and Raft Paddles</p>	<p>SUP Paddles</p>
<p>Dragon Boat Paddles</p>	<p><b>Careful!</b></p> <p>To determine the right length of your paddle, you have to take into account the type of your boat, particularly its width! For more information please contact your manufacturer.</p>

Allround Canoe

Blade surface area: 760 cm²  
Shaft diameter: 30 mm  
Blade material: HDPE – High-density polyethylene  
Blade colours available: ●●●●●  
Lengths: 135 – 170 cm  
Shaft material: dural, fiberglass, carbon

\* not available with dural shaft  
\*\* available with dural shaft only

Children's Canoe

Blade surface area: 592 cm²  
Shaft diameter: 28 mm  
Blade material: HDPE – High-density polyethylene  
Blade colours available: ●  
Lengths: 100 – 135 cm  
Shaft material: dural

SUP M / SUP S

Blade surface area SUP M: 686 cm²  
Blade surface area SUP S: 550 cm²  
Shaft diameter: 30 mm  
Blade material: PC – Polycarbonate composite  
Blade colours available SUP M: ●●  
Blade colours available SUP S: ●●●  
Lengths SUP M: 158 – 210 cm  
Lengths SUP S: 143,5 – 195,5 cm

SUP C

Blade surface area: 560 cm²  
Shaft diameter: 30 mm  
Blade material: carbon  
Blade colours available: ●  
Lengths: 174 – 220 cm

Catch

Blade surface area: 547 cm²  
Shaft diameter: 30 mm  
Blade material: PAG – Glass reinforced polyamide  
Blade colours available: ●  
Lengths: 180 – 260 cm  
Shaft material: dural, fiberglass, sanded fiberglass, carbon

- 1/ **Hook** – helps to pull your boat to the bank or to pull other objects closer to your boat.  
2/ **Fishing line groove** – helps to release a stuck fishing line from the water or branches.  
3/ **Rough edge** – makes it easier to shove off.

\* not available with dural shaft

Raft

Blade surface area: 740 cm²  
Shaft diameter: 30 mm  
Blade material: HDPE – High-density polyethylene  
Blade colours available: ●●●●●  
Lengths: 140 – 170 cm  
Shaft material: dural, fiberglass, carbon

\* not available with dural shaft  
\*\* available with dural shaft only

Raft Guide

Blade surface area: 985 cm²  
Shaft diameter: 30 mm  
Blade material: HDPE – High-density polyethylene  
Blade colours available: ●●●●●  
Lengths: 150 – 170 cm  
Shaft material: dural

Dragon

Blade surface area: 709 cm²  
Shaft diameter: 30 mm  
Blade material: HDPE – High-density polyethylene  
Blade colours available: ●●●●●  
Lengths: 100 – 130 cm  
Shaft material: dural, fiberglass, carbon

\* not available with dural shaft

DRAGON BOAT

A bag for a two-piece paddle set.

Dimensions: 129 x 25 cm  
The centre divider keeps both of your blades safe!

A simple bag for a three or four-piece paddle set.

Dimensions: 71 x 26 cm

A bag for a three or four-piece paddle set, water resistant.

Dimensions – unfolded: 100 x 26 cm

A bag for a two-piece set, water resistant.

Dimensions – unfolded: 119 x 26 cm

Wooden paddle

Blade surface area: 534 cm²  
Length: 72 cm  
Material: wood  
Weight: 456 g

- 1/ **Hook** – helps to pull your boat to the bank or to pull other objects closer to your boat.  
2/ **Rough edge** – makes it easier to shove off.

Not available at the U.S. market.

Drip ring for shafts with diameter 28 to 32 mm.

Easy to put on - see on-line video at [eng.tnp.cz/drip-ring](http://eng.tnp.cz/drip-ring)

Latis

Blade surface area: 764 cm²  
Shaft diameter: 30 mm  
Blade material: PC – Polycarbonate composite  
Blade colours available: ●●  
Lengths: 135 – 170 cm  
Shaft material: dural, fiberglass, carbon  
Paddle types – see on-line at: [www.tnp.cz/latis/](http://www.tnp.cz/latis/)

Froggy

for children  
Blade surface area: 675 cm²  
Shaft diameter: 28 mm  
Blade material: PC – Polycarbonate composite  
Blade colours available: ●●  
Lengths: 100 – 135 cm  
Shaft material: dural, fiberglass, carbon  
[www.tnp.cz/froggy/](http://www.tnp.cz/froggy/)

Combination

Blade surface area: 736 cm²  
Shaft diameter: 30 mm  
Blade material: HDPE – High-density polyethylene  
Blade colours available: ●●●●●  
Shaft material: dural

A canoe and kayak paddle in one with a spring-button ferrule

CANOE / KAYAK

CANOE POLES / OARS

Oars

Blade surface area: 626 cm²  
Shaft diameter: 28 mm (handle) and 30 mm  
Blade material: HDPE – High-density polyethylene  
Blade colours available: ●●●●●  
Lengths: 170 – 240 cm  
Shaft material: dural

Canoe Poles

Shaft material: dural or fiberglass  
Shaft diameter: 30 mm / 1 mm or 30,5 mm / 1,25 mm  
Ferrule: spring-button ferrule  
Length: 360 cm

The ends of fiberglass shafts are carbon-reinforced.

Blade materials

		Strength
HDPE	High-density polyethylene	*****
PAG	Glass reinforced polyamide	*****
PC	Polycarbonate composite	*****
PAC	Carbon reinforced polyamide	*****
Carbon	Very light, high distortion resistant material	*****
Fiberglass	Light material with excellent mechanical properties	*****

Paddle grips

Feathering Angle

Paddles are delivered, by default, with right feather with 60° angle. Adjustments (right-left feather) need to be specified in the order. Upon special request splits (split paddles) can be delivered with two offset positions (e.g. 45° and 90°, 90° and 0°, 45° and 0°).

Spring-button ferrule

Adjustable feathering angle for one or two angle positions, e.g.: 0°, 45°, 60°, 90° /// 0° + 45°, 0° + 60°, 0° + 90° /// R 45° + L 45°, R 60° + L 60°  
All metal parts of the joint are made from stainless steel.

Vario YP ferrule

- full-range feathering angle options
- allows quick lengthening of paddle **up to 10 cm**
- quick and easy tool-free assembly/ disassembly

Vario Z ferrule
